## THE INFORMED CHOICE

## THE WHEY PROTEIN SUPPLEMENT *WITH A DIFFERENCE*

- **WHEY PROTEIN CONCENTRATE WPC:80**
- **PREBIOTIC FIBER FOR ADVANCED DIGESTIVE SUPPORT**
- **PROBIOTIC FORTIFIED TO MAXIMIZE DIGESTIVE HEALTH**
- **VIT C . VIT B COMPLEX . VIT A . PABA ... AND MORE**

Reapian Medical SPORT XSPN XTREME WHEY PROTEIN COMPLEX consists of an excellent source of whey protein. The body rapidly digests it, allowing fast absorption of its nutritional benefits into the bloodstream and muscles. Whey Concentrate (WPC80) is the best and least processed form of whey protein because it contains low levels of fat and cholesterol and higher levels of bioactive compounds. Because it's minimally processed, it retains the health-promoting nutrients that are found naturally in whey. The high level of Immunoglobulins boosts the immune system and sports recovery. The formula is fortified with prebiotic fiber and probiotic microbes for advanced digestive support. The added vitamins and digestive nutrients make this another unique and superior whey protein supplement by Reapian Medical PharmaX Formularies.

**STORE IN A COOL, DRY PLACE. CONSUME WITHIN 90 DAYS AFTER OPENING.**

## THE DIFFERENCE

### PRE- AND PROBIOTICS

The probiotics are able to regenerate our digestive system with good microbes that will neutralize the harmful ones. The probiotic microbes will ferment our food correctly and improve our health.

### VITAMIN A,B,C COMPLEX

The family of Vitamin B's are important for DNA synthesis, regenerating methionine for protein synthesis and methylation, and preventing homocysteine accumulation to speed up recovery. Vitamin C is vital for normal synthesis of collagen, L-carnitine, catecholamines, and proteins. Vitamin A increase muscle protein synthesis

### PABA AND BETAINE HCL

PABA is a coenzyme in various metabolic processes within the gut, which help to support the intestinal bacteria that are needed for proper digestion. When taken with a meal, Betaine HCl gives your stomach acid levels a boost and helps you more effectively break down food and absorb nutrients. By restoring stomach acidity levels, Betaine HCl can also help to destroy harmful bacteria in your stomach before they enter your digestive tract.
