- GLUTEN FREE
- HALAL

REAPIAN MEDICAL PURE MARINE COLLAGEN COMPLEX is a 100% marine-based, all-natural ingredient composed of collagen and elastin peptides formulated in the same ratio found naturally in human skin. It combines the two main constituents of the extracellular matrix and has an anti-wrinkle synergistic action: elastin fibers give the dermis suppleness that complements collagen fibers' tensile strength.

A study showed a synergistic anti-wrinkle action, stimulating the skin to lift and tone sagging areas and minimize lines and wrinkles while increasing skin moisture retention. With a low molecular weight, it is water-soluble and fully digestible, making it an ideal anti-aging supplement for a wide variety of beauty-from-within applications.

COLLAGEN REINFORCES SKIN HYDRATION

The moisturizing effect of Marine Collagen is supported by a clinical study involving 44 women over 40 years old. The results show an increase in the entire epidermis hydration (+8%) after oral administration of pure marine collagen for three months, stabilized at day 84. In the placebo group, an increase in the number of deep wrinkles was noted on both day 28 and day 84. In addition, Collagen caused a moisturizing effect on the skin.

- Helps reduce deep wrinkles
- Mimics collagen & elastin ratios found in skin
- Low molecular weight
- Water-soluble
- Mild taste profile with no unpleasant aftertaste
- Sustainably-produced
- Clinically-studied
- Non-GMO
- Gluten-Free

PURE MARINE COLLAGEN

WILD CAUGHT MARINE FISH COLLAGEN

Reapian Medical Pure Marine Collagen delays the skin aging process by protecting the skin and stimulating its main structural constituents.

HELPS REDUCE DEEP WRINKLES

Pure Marine Collagen and elastin oligopeptides stimulate the biosynthesis of the main dermis constituents to lift and tone slacking areas. Researchers used a Skin Image Analyser® (S.I.A.) (Monaderm, Monaco) to measure the number and depth of wrinkles. Skin hydration was measured as well. Questionnaires were used throughout the clinical study and showed excellent tolerance to pure marine collagen.

After 28 days, marine collagen supplementation resulted in a significant decrease (19%) in the number of deep wrinkles in 71% of the subjects. The level was stabilized on day 84.

BIOAVAILABLE COLLAGEN PROMOTES AND IMPROVES

Smooth Skin

Stronger Hair

Eye Health

Joint Repair

Stronger Nails

Plump Lips
